## About This Content

Varth had the tagline "The Final Battle. Regain the planet VARTH!!" and boasted 30 stages of classic, vertically scrolling shooting with bullet-shielding pods and a self-charging bomb. Planet Varth wasn't the final battle! Saber returns!

### Features:

- Saber is playable in DLC mode as a ship.
- Switch between two pod modes (Fuzzy or Front) to protect your ship.
- Pods can fire homing missiles or napalm.
- Go podless through an entire stage for a special bonus!
- Unique stages, original soundtrack and 2 remixed tracks by Hiroyuki Iwatsuki

Purchasing this DLC gives you access to 3 special stages designed specially for this ship. (Only scores using this ship will be registered in the special stages.) You will also get access to the Capcom pack: 10 newly arranged stages including 3 boss fights, as well as CS PACK 5: 10 stages from CS mode. Buying any DLC also lets you use all the DARIUSBURST ships from the base game in the DLC Mode stages.

Excellent DLC. The ship plays very similar to the original, uses the same sound effects, new remixed music is pretty good too. I would honestly recommend all of the Capcom DLC to tell you the truth. If the price is not something that you like. Wait for a sale. It will drop again very soon.
