About This Game

"A strange signal... an alien craft... an interplanetary, gravity-defying journey through space and time."

EXO ONE is a single-player, exoplanetary exploration game where you pilot an alien craft capable of manipulating gravity.

Drift and flow across enigmatic and desolate alien landscapes using a gravity-based movement system. Transform between a sphere and glider to maintain momentum, using the geology beneath you and the clouds above to build colossal speeds and heights. See amazing, high-sci-fi planets, float through boiling cloud formations, slide and roll down hill and mountain faces, and drift toward alien horizons.

Atmospheric, diffused visuals are merged with otherworldly sound effects and a hypnotic electric guitar soundtrack.

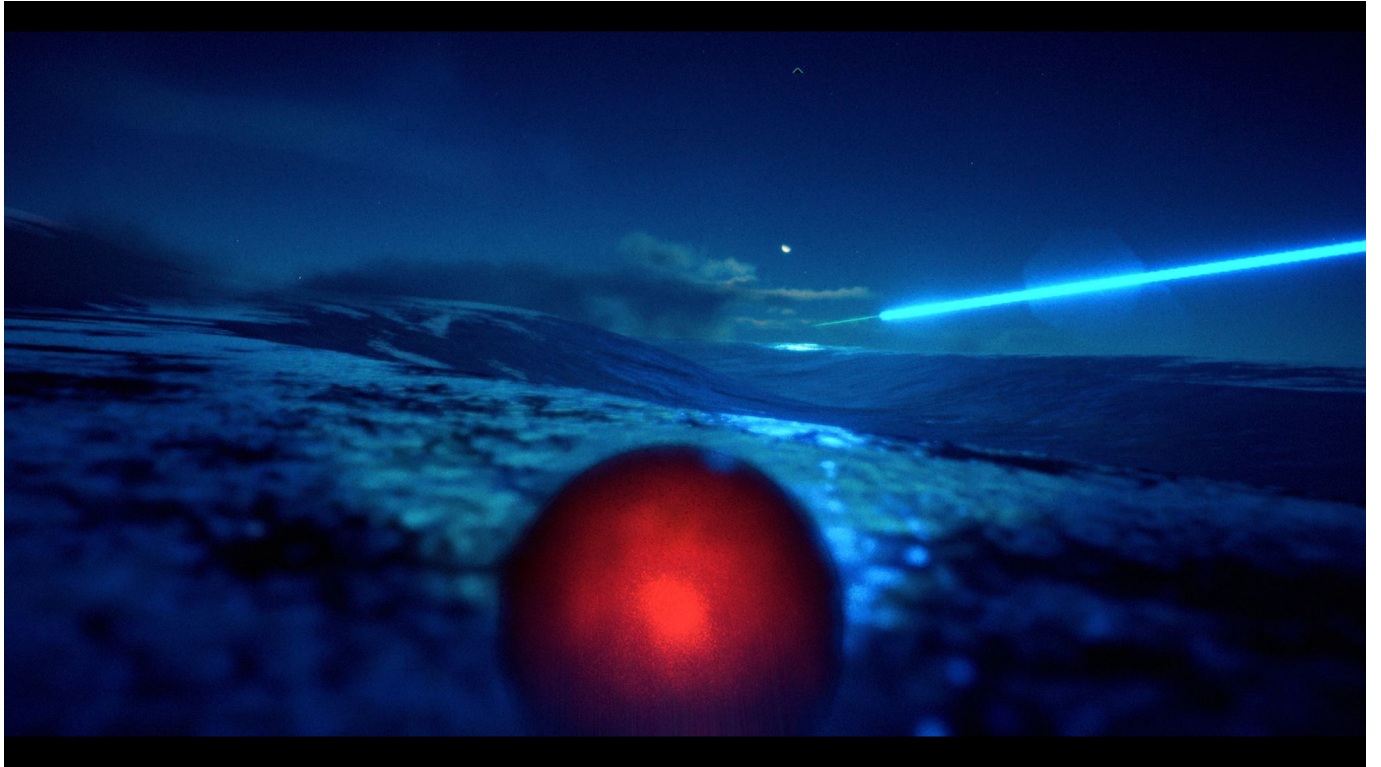

Enter the surreal and alien worlds of EXO ONE and follow the story of mankind's first mission outside the solar system.
